Subject: SETTLE !!!

To Whom this May Concern,

I personally think the WHOLE attack on Microsoft has been unfair and unjust. They are an excellent company, have excellent products----and they certainly do not force anyone to be their customers. After all, isn't opportunity what our country all about? Should excellence be allowed to be destroyed by the jealous and reduced to mediocrity?

This whole ridiculous situation has gone on too long. And the attorneys have probably made out like bandits as usual.

SETTLE WITHOUT FURTHER DELAY-----and turn yourselves to important worldly issues. Further, I feel that Microsoft should be re-imbursed its legal fees by its attackers.

Sincerely, Anna Jeannet
